

NEW HIGH QUALITY FACE RECOGNITION SYSTEMS

T301

Face Recognition Time Attendance and Access Control
Face New Experience

- Screen: 2.8" High Resolution Color Display
- Authentication: Face, Fingerprint, PWD
- Face Template: 1000
- Password: 1000
- Wireless Doorbell: Yes
- Record capacity: 160000
- Verification speed: < 1S
- Verification Mode: 1:1, 1:N
- Communication: TCP/IP, USB flash
- Report: Direct export via USB flash
- Color: Black, Grey, Silver, Golden

• Reverse Polarity Protection • Wiegand Out • Temper Alarm • One-step to Delete Admin • Metal Housing • Wireless Doorbell

Metal Housing
Exquisite Work

One-piece metal housing of aluminum alloy, through 9 refined process of casting, polishing and painting etc. It is compact, stable and excellent in heat dissipation as well.

High Light Frame
Quality Entails Details

Qualified frame made by 100k RPM drills

Wireless Doorbell
Long Distance

Up to 36 selective tones.
4 adjustable volume levels.
Remote control / signal receive.
Digital circuit design to ensure stable and reliable work.
Learning type of automatic pairing.

Dual wide-angle lens
Accurate Authentication

High resolution dual wide-angle lens ensures the accuracy and high efficiency of face recognition.

Installation

After test, the best installation height from the top to the floor is 155±3cm.

Big Data of Face

Accurate recognition

Strong signal

Big Data of Finger

Fingerprint up to 10K
